Shapiro Administration Invests \$38 Million in Municipal Traffic Signal Upgrades to Enhance Safety and Improve Traffic Flow in Communities Across Pennsylvania

The Shapiro Administration is providing funding to 86 municipalities across 31 counties in the Commonwealth.

Since taking office, the Shapiro Administration has invested \$134 million through the Green Light-Go Program to enhance safety and improve traffic flow across Pennsylvania.

Harrisburg, PA — Today, the Pennsylvania Department of Transportation (PennDOT) announced that **86 municipalities** across the Commonwealth will receive **\$38 million** through the [Green Light-Go Program](#) to improve traffic safety and mobility by reducing congestion and improving traffic flow. Since Governor Shapiro took office, **\$134 million** has been distributed to municipalities through the program.

“Under Governor Shapiro’s leadership, we’re working to serve the people of our Commonwealth by improving the services that make a real difference in their lives,” said **PennDOT Secretary Mike Carroll**. “The safety improvements supported by the Green Light-Go program will help municipalities keep Pennsylvanians moving safely and efficiently. I’m proud that PennDOT continues to partner with communities to deliver real results.”

Below is a list of awarded projects by county. Green Light-Go grants are provided as reimbursements to municipalities for projects that improve the efficiency and operation of existing traffic signals. These projects are funded through the FY 2026–27 budget. Eligible improvements include, but are not limited to, installation of light-emitting diode (LED) technology, traffic signal retiming, special-event traffic planning, traffic signal monitoring, and upgrades to modern signal technologies. For more information and a complete list of awarded projects, visit [PennDOT’s website](#).
